Introduction to The Payroll Site

Legislative updates

The Payroll Site is kept up to date with all the legislative updates, which you automatically benefit from when you log on to www.thepayrollsite.co.uk.

Help

This guide will help you to use the system. Also once you have logged onto the website you will see every time you click on a field a handy help box, situated to the bottom left of the screen, will appear to advise on what you need to enter. You will find useful guides and FAQs within the website to assist you further. You can also find contact details on the 'Contact Us' page of the website.

Security of data

All customer information is kept securely on computer systems located in the UK, in compliance with the Data Protection Act. The service is provided using 128-bit encryption and digital certificates to ensure that all communications are secure. Duplicate systems are kept in data centres at separate locations, to minimise disruption in the event of a major catastrophe.

Pricing

For current pricing information, please see the website www.thepayrollsite.co.uk
Entering company details

Click onto 'Employer' under the options menu where you will be asked for the following:

**Employer name and address**
Enter the name and address of the organisation or person who is the employer.

**Employer's PAYE reference**
The first box is for the 3 digit code of your HMRC office for PAYE matters and the second is for the PAYE Reference. These two numbers are grouped together by HMRC on the front of the HMRC booklet P30BC or on the letter P30B 'Paying electronically'.

**Employer's Accounts Office Reference**
This reference is issued by HMRC and is not the same as the PAYE reference. You can find it on your payslip booklet, or other HMRC correspondence. It is 13 characters, starting with 3 digits and then 2 letters.

**HMRC user ID**
The User ID you were given when you signed up for HM Revenue & Customs online.

**Corporation Tax Ref or Self Assessment UTR**
You should only have one of these, depending on your business structure. If supplied, they will be included in your Real Time Information submissions.

**Auto Enrolment Staging Date**
You can look up your staging date on The Pension Regulator's website.

**Tax payment frequency**
This will be set to monthly unless you have an arrangement with HMRC to pay quarterly.

**Entitled to £xxxx Employment Allowance?**
You should select either Yes if you are eligible, or No if you are not. More information about eligibility can be found on HMRC's website. Once you have made the selection you should follow the onscreen instructions to inform HMRC.
Was the total NI liability (including employee’s contributions) less than £45,000?

This information will enable the system to determine if you are entitled to reclaim a higher proportion of Statutory Pay for Parents.

If you wish to edit your company details, click on 'Edit changes', make the required amendments and then click 'Save changes'.
Setting up employees

Adding an employee/new starter

Click on 'Add Employee', which is situated under the 'Options' menu to the left of the page. You will then see this screen.

Choose the relevant option and then follow the onscreen instructions.

If starter information needs to be sent to HMRC, this will be attached to you next Full Payment Submission (FPS).
You will then see a screen similar to the one below. The look of the screen depends on which option you selected.

![Add Employee Screen](image)

Enter all of the employee's details. When you click on any field the help box situated to the bottom left of the page will automatically change to give you guidance relating to that field. When you have finished entering the details click 'Create Employee'.

**Note:**

If you are transferring data from another payroll system then you must ensure that you use the same Payroll ID (referred to as Employee Ref No) on our site. If you have an employee who leaves your employment but then comes back you must use a different Payroll ID.
Once you have created the employee you should then click on their name on the left hand side of the screen. You will then be able to complete any additional information using the tabs 'Personal Details' and 'Tax Details'. If you are adding or changing information then you will need to click 'Edit Details' and then once done, 'Save Changes'. The other three tabs are explained later in this guide.

**Note:**

If you set someone up as a 'Company Director', the National Insurance is calculated in a different way. If you are unsure about who should be treated as a director or which method to use see HMRC Helpbook CA44.

**Leavers**

When an employee leaves

- **Step 1** - Go to their Tax Details tab and enter their Leaving Date and Final Pay Date (this date should match the date of their last payment).

- **Step 2** - Enter the pay run covering their final wages, ensuring the Pay Date matches the Final Pay Date.

- **Step 3** - Once confirmed, this will trigger the system into sending their Leaving Date to HMRC along with your next Full Payment Submission.

- **Step 4** - Return to their Tax Details tab where you will be able to click to 'Create' the P45, once checked you can click 'Confirm' and then print to give to the leaver.

You do not need to send a copy of the P45 to HMRC.

**Deleting an employee**

If you have entered an employee in error then you can delete them. Under the 'Personal Details' tab for each employee there is an option to 'Delete employee'. If however, they have been paid within the tax year, you should NOT delete them.
Paying employees

**Note:**

If you are switching payroll systems and any of your employees have been paid in the current tax year (From 6th April) using another system then you will need to enter details of their wages, Tax & NI. To do this follow the steps below but remember you will need to enter each pay run to bring them up to date.

- **Step 1** - Click on 'Pay Employees', which is under the options menu to the left on the screen.

- **Step 2** - Click on 'Start new pay run'.

- **Step 3** - Set the Pay Date, Salary (if not already shown) and other columns as necessary, you can also click on 'Add' under the 'Extra Options' column for more pay options, such as Deductions from Net Pay. When you click on any field the help box situated to the bottom left of the screen will automatically change to give you guidance on filling in that field.
- Step 4 - Click 'Calculate Deductions' and you will see a screen like this.

- Step 5 - Check the information appears to be correct, then click 'Confirm Payments'.

- Step 6 - You now have the option to View/Print payslips. If you prefer to email them to your staff then click onto the 'Payslip Options' tab.

- Step 7 - Click onto the RTI submission tab or button

---

**Note:**

To email payslips you must have put the employee's email address onto their 'Personal Details' tab. You also have the option to password protect the email and the password can also be entered on this tab.
Sending Real Time Information to HMRC

Every time you do a pay run for your staff you will be required to send a Full Payment Submission (FPS). To do this, follow the steps below:

- **Step 1 -** Once on the 'RTI submission' tab click on 'Create RTI submission'.

- **Step 2 -** The system will then create an FPS, which you can view on screen. It will automatically include details of the current payrun and Year to Date figures.

- **Step 3 -** Fill in your User ID and password for the HMRC Online Gateway and click 'Send to HMRC'.
Troubleshooting

My employee's tax figures don't look right

- There are two HMRC approved methods for calculating PAYE income tax and depending on the method used the result can differ by up to 2p. The Payroll Site uses the computerised method.
- If the employee is new or the earnings are too low there may be no tax as yet.
- There may be a tax rebate for a new employee.
- If you haven't entered history of past pay the figures may be wrong.

Reason for no NI figure

- If the employee is a Company Director, the NI is calculated over a longer period, typically a year. This often leads to zero NI in the first few periods of the year and then higher NI figures later in the year.
- The NIC table letter is set to C or X. I.e. if they are under 16 or over the retirement age.
- The pay is too low to attract NI.

I have confirmed the pay run but now realise it is wrong

If you have not already made a tax payment you can delete the last pay run. To do this, follow these steps:

- Step 1 - Click on the name of the employee, on the left of the screen under 'Options'.
- Step 2 - Click on the 'Working sheet' tab, which is the last tab on the right.
- Step 3 - Click on the 'Delete last payment' button at the bottom of the page.
- Step 4 - Go back to 'Pay Employees' and re-run the payrun that you have deleted. Ensure that you use the same pay date that was used prior to deletion. Once confirmed send the RTI to HMRC. Our system will carry over the amendment.
There is no 'Start new pay run' button
This is because the previous pay run you entered was never confirmed. Click on the button 'Confirm payments', 'Change payments' or 'Discard pay run'. You will then be able to 'Start new pay run'.

An employee has left but they are still appearing
There are 3 reasons for this and so you need to check the following:

- Have you entered the 'Leaving date' for the employee on their 'Tax details page'?  

- Has the employee been paid up to their leaving date? If the leaving date and the 'Period End' for the last pay period do not match then the employee will continue to appear.

- The Final Pay Date entered on the Tax Details tab differs from the actual date you are paying them for the final time.

I need to pay my employee for a partial month
The way pay is calculated for partial months (or partial weeks) is determined by the contract between employer and the employee. If no arrangement has been agreed, the default arrangement is to divide the annual salary by 365 and then multiply by the number of calendar days.

There are actually 52 weeks and 1 day in a year, or 52 weeks and 2 days in a leap year. If an employee is paid weekly and one of their pay dates falls on the extra day or days, it will be classed as week 53. If they are paid fortnightly then that payment will be classed as week 54. If they are paid four weekly then the last payment will be classed as week 56.
Exporting to your accounting system

After you have clicked 'Confirm payments', click on the 'Export' button. Within the configuration page you have the following options:

CSV
The figures can be exported as a CSV file, which can then be loaded into a spreadsheet and imported into some accounting systems.

Xero API / CSV
If you have an account with Xero, you can transfer your payroll figures directly into their system, or you can transfer them indirectly using a CSV file. For more information please see the FAQ within the website 'How do I export my pay run figures to Xero?'

Sage 50 CSV/ Old Sage 50
If you use Sage 50 Accounts 2010 onwards, you can use the Sage 50 CSV option to transfer your figures into your accounting system. The Old Sage 50 option can be used with earlier versions of Sage 50. For more information please see the FAQ within the website 'How do I export my pay run figures to Sage?'

KashFlow API
If you have an account with KashFlow you can send your payroll figures directly to their system. For more information see the FAQ within the website 'How do I export my pay run figures to KashFlow?'

Business Accountz
Accountz.com Ltd publishes this package. The latest version of Business Accountz incorporates a feature for downloading your payroll figures directly from The Payroll Site.

To use this feature, open Business Accountz, click on the File menu and choose the Payroll option. Detailed help about using that feature can then be viewed by clicking on the '?' symbol in the bottom corner of that page.

If the Payroll option does not appear, you may need to upgrade to the latest version - click on the Help menu and choose 'Check for Upgrade'.
QuickBooks Online

If you have an account with QuickBooks Online you can send your payroll figures directly to their system. For more information see the FAQ within the website 'How do I export my pay run figures to QuickBooks Online?'

QuickFile

If you have an account with QuickFile you can send your payroll figures directly to their system. For more information see the FAQ within the website 'How do I export my pay run figures to QuickFile?'
Calculating sick pay

Understanding sick pay

Below is a list of key terms, which are used when referring to Statutory Sick Pay.

**PIW**: Period of incapacity for work of 4 or more continuous sick days (PIWs can be linked)

**QD**: Qualifying Day

**WD**: Waiting Day

Statutory Sick Pay is paid to employees who are unable to work because of illness and who meet the below criteria:

1. The employee must be sick for a minimum of 4 days. All days (not just scheduled work days) count towards a PIW (Period of incapacity to work).
2. Their earnings must be at least as much as the Lower Earnings Limit for National Insurance Contributions (NICs).
3. The employee must have notified you of their sickness - either within your own set time limit or within seven days.
4. They have not already received the maximum amount of SSP.

If your employee is not entitled to SSP then you, the employer should complete an SSP1 form and give it to the employee, as they may be able to claim a social security benefit.

Entering sick days onto the system

- **Step 1** - Click on the employee's name.
- **Step 2** - Click on the 'Statutory Pay' tab.
- **Step 3** - Under 'Statutory Sick Pay' the automatic default for 'Add Statutory Sick Pay to wages' is set to 'Yes', this should be left as 'Yes' if the employee is only to receive the statutory minimum whilst off. If you are paying full wages, change it to 'No'.
- **Step 4** - Under 'List of Sick Periods' enter the first full day that the employee was sick.
- **Step 5** - Enter the last full day of their sickness. If the sickness is ongoing then leave this blank and go back to enter it once they have returned to work.
• Step 6 - Click 'Add'. You will then see the average earnings for the relevant set period. The SSP amount at this point will still show as 0.00.

**Paying an employee with sick pay**

Firstly begin the pay run as normal by clicking on 'Pay Employees' and clicking 'Start new pay run'.

If you are paying the employee just the statutory minimum, you will need to reduce the salary to reflect the amount they should be paid for the time they actually worked. (See the 'I need to pay my employee for a partial month' section on Page 9). The system will add the SSP at a later step.

Next, click on the 'Sick Pay' button and you will see the following screen.

![Sick Pay Screen](image)

You are now being asked to enter the qualifying days - remember unless otherwise agreed these are the days the employee normally works. So if the employee normally works Monday to Friday you should untick Saturday and Sunday.

If the employee does not follow a set weekly working pattern then click where indicated, underneath the grid. You should then untick all the days that are not normally worked.
Below the qualifying days you are asked if any exclusions apply. Please click on the relevant option and enter the date the exclusion applies from where prompted. If there are no exclusions then leave as 'None of the above apply'.

Click 'Calculate Sick Pay'.

You will then be shown how the SSP is to be worked out and the amount.

You can now click 'Calculate Deductions' and proceed as normal.
Calculating statutory pay for parents

Who qualifies for statutory maternity pay

An employee who meets the criteria below is entitled to SMP.

1. They must have worked continuously - full or part-time for at least 26 weeks up to and into the 15th week before the week the baby is due.
2. Their earnings must be at least as much as the Lower Earnings Limit for National Insurance Contributions (NICs).
3. They have given you the correct paperwork confirming the pregnancy and sufficient notice of when they would like the SMP payments to begin.

The system will check these criteria for you if you click the 'Use Wizard' button on the Statutory Pay tab.

If your employee is not entitled to SMP then you, the employer should complete an SMP1 form and give it to the employee, as they may be able to claim maternity allowance instead.

Who qualifies for statutory paternity pay

An employee who meets the criteria below is entitled to SPP.

1. They've worked for you continuously for at least 26 weeks up to and into the 15th week before the date the baby is due.
2. They continue to work for you until the date the baby is born.
3. Their earnings must be at least as much as the Lower Earnings Limit for National Insurance Contributions (NICs).

If the child is adopted, the rules are slightly different. You can get these rules from the HMRC.

Entering statutory leave onto the system

- Step 1 - Click on the employee's name.
- Step 2 - Click on the 'Statutory Pay' tab.
- Step 3 - Under 'Statutory Pay for Parents' the automatic default for 'Add to wages' is set to 'Yes', this should be left as 'Yes' if the employee is only to receive the statutory minimum whilst off. If you are paying full wages, change it to 'No'.

...
Step 4 - There is a button for 'Use Wizard'. Click this and answer the questions as they come up, clicking 'next' after you have answered each one.

Step 5 - When you have answered all questions you will be asked to save. At this point click the 'Save' button.

Paying statutory pay for parents

Firstly begin the pay run as normal by clicking on 'Pay Employees' and clicking 'Start New Pay run'.

If you have set 'Add to wages' as 'Yes' then you need to reduce the salary amount to reflect the amount they should be paid for the time they actually worked in each month or week. (For all complete weeks/months when they are off on leave this should be set to 0.00). In order to work out any part months or weeks see the 'I need to pay my employee for a partial month' question. Once you have done this click 'Save'.

If you have set 'Add to wages' as 'No' then you do not need to reduce the salary. You can now continue with the pay run as normal.
Recovering statutory pay for parents

Any amount that can be reclaimed will be worked out automatically and shown on the 'HMRC Payments' page.

If you are recovering statutory pay then you will also need to send an Employer Payment Summary to HMRC. Please see the EPS section for how to do this.
Entering other deductions

Pensions

For more information about how our site deals with Auto-Enrolment or Workplace Pensions please see our Online guides which can be found within the 'Workplace Pensions' option.

Court orders/child support payments

If you are required to deduct any court order or child support payments from your employee's wages then these can be entered at the bottom of the 'Pensions etc.' page. There is an 'Overview of Order Types' on this screen, which you can click on to see the meaning of each Order.

Once you have clicked on the correct order type from the drop down box you should click 'Add Order'. You will then be asked to enter the figures, after which you should click 'Save Changes'. Once you have entered all the required information relating to the order, the figures will automatically be calculated and shown when you do any subsequent pay runs.

Student loans

If you are informed that an employee should be having a Student Loan deducted then you will need to know whether it is Plan 1 or Plan 2. You can then set this by going to their 'Tax Details' tab and changing the 'Student Loan Deductions' question to reflect either Plan 1 or Plan 2. The system will then do all the calculations for you when doing your pay run.
Paying HM Revenue & Customs

You need to make monthly payments to HMRC unless you have arranged with them to pay quarterly. The payments are due by the 19th of the month, or the 22nd if you pay electronically.

Saving tax payments

- Step 1 - Click onto 'HMRC Payments/EPS', which you will find under the 'Options' menu on the left of the screen.

- Step 2 - Click onto the field 'Enter date paid' and enter the date you have or are planning to pay HMRC then click 'Save'.

- Step 3 - Repeat this step each month or each quarter to help ensure your payments are up to date.
Adding special items

It is on this page that you can add any special items such as CIS deductions. To do this:

- Step 1 - Click on 'Add a special item'.
- Step 2 - Select the special item from the drop down menu.
- Step 3 - Enter the amount and click 'Add'.

You will see what you have just added on the main screen above.

You now have a record of the figures and when payments were made to HMRC.

If you wish you can also print this information by clicking on the 'Print This Page' button located at the bottom of the screen.

Employer Payment Summary (EPS)

If you have any Parental pay or CIS deductions to reclaim from HMRC then you will be required to send an Employer Payment Summary to HMRC. This option can be found on the second tab within the 'HMRC Payments/EPS' option. You should select the 'Amounts to reclaim' option and then click 'Create EPS submission'.

Note:

Always check that employee payments have been confirmed before saving a tax payment.
You will see the following screen:

The system will automatically fill in the figures for how much can be reclaimed. This information is taken from the completed pay runs and does not need to be entered manually. It will also take into account any CIS deductions suffered if you have entered as special items on the HMRC Payments page. Once you are ready to send the information to HMRC, fill in your User ID and Password for HMRC Online and click 'Send to HMRC'.

An EPS submission should reach HMRC by the 19th of the month.

**Informing HMRC no employees are being paid in a certain tax month**

If no employees are being paid in a certain tax month you must let HMRC know by sending a 'No Payments made' EPS. This can be done by following the instructions above but instead of choosing the option for 'Amount to reclaim' you should choose 'No payments made'.

Viewing working sheets

The 'Working Sheet' tab, which can be found by clicking on the employee's name under the 'Options' menu on the left of the screen, shows the pay and deductions for an employee over the tax year so far. It is similar in layout to the HM Revenue & Customs P11 form.

The 'Working Sheet' is split into 3 main column headings

- National Insurance Contributions
- Statutory payments
- PAYE Income Tax

If you have made an incorrect payment to an employee (See the Paying Employees section) then you can delete the payment by clicking on 'Delete Last Payment', which is at the bottom of the screen.

You also have the option of viewing old payslips, by clicking on the net pay figure on the right side of the page.

Printing

You can print the working sheet by clicking on 'Print Worksheet', which is at the bottom of the screen. Alternatively if you wish to print all employees' working sheets then click on 'Reports' which is under the 'Options' menu on the left and you will be able to click on 'Summary pack' and print from there.

The Summary Pack can also be saved to your computer or emailed if necessary. If you use an accountant the Summary Pack will contain all the information that they would need.
Understanding the year end process

The tax year ends on 5th April and all pay dates after this must be treated separately. You should check that the details of the old year are complete before moving into the new year. You will have the option of sending your final RTI submission to HM Revenue & Customs.

Finishing the tax year

Whether you are planning to submit your final EPS via The Payroll Site or not you will need to click 'Finish Tax Year'.

Before you do this, check to ensure the following has been completed:

1. All employees have been paid up to date and details sent to HMRC.
2. All leavers have been processed.

Once you are satisfied that everything is up to date then click on 'Finish Tax Year', which is under the 'Options' menu to left of the screen.

Note:

Once you have clicked 'Finish Tax Year' you will not be able to go back to make any changes.

Final RTI Submission

If you are not planning to send your final RTI submission via The Payroll Site then you are now ready to proceed with paying your employees in the new year.
If you are planning to submit your final RTI submission via The Payroll Site and you are in a position to do this now then you need to click on 'View Tax Year 20xx/xx' under the 'Options' menu and you will see this screen:

Figures for Parental pay and CIS deductions reclaimed will appear automatically, based on what you have entered onto the system. They can be edited if necessary. Fill in your User ID and Password for HMRC Online and click 'Send to HMRC'. You must send your final RTI submission to HMRC by 19th April.

Remember it is your responsibility as an employer to ensure that the final RTI submission is correct and submitted on time.

You should give P60 certificates to your employees by 31st May. You can print or download a P60 by clicking the employee's name and then clicking the 'P60 Certificate of Pay' tab.
Further help & information

If you need further help and information the following options are available to you within the website:

FAQ

This is a list of frequently asked questions and can be found under the 'Options' menu on the website.

Help box

Help will appear whenever you click on a field within the website and can be seen to the bottom left of the screen.

Contact us

Details can be found on the 'Contact Us' page on the website.
Preferences

Click 'Preferences' under the options menu.

From this page, you can

- Change your password or your email address.
- Validate your email address.
- Fill in your contact details.
- Set up automatic tax reminder emails.
- Change the order that employees appear.
- Close your account or make it dormant.
- Change the payslip printing option
